### BrowserCRM Reseller Program

**BrowserCRM** is a browser-based customer management application for SMEs (Small to Medium Enterprises). It provides contact management features including email, file management, tasks, opportunities, calendaring web site integration.

BrowserCRM is widely deployed in small businesses typically with 5 to 250 users in diverse industries in services, retail and manufacturing. See case studies on our website.

#### BrowserCRM Reseller Opportunities:

◆ **Increase yield per customer**

Offer BrowserCRM to your existing customer base to increase yield per customer

◆ **Grow demand for bandwidth and server infrastructure**

Generate increased demand for your bandwidth and infrastructure services by offering BrowserCRM Hosted in your data center

◆ **Professional support**

Our experienced technical team provides sales and technical support at the level you choose

◆ **Powered by BrowserCRM (OEM)**

Offer a customized build of BrowserCRM with custom modules, fields and reports to your target vertical market or existing client base. BrowserCRM is an excellent platform for delivering a solution aimed at a specific type of company or geographic region, or as the CRM component of a broader product offering.

◆ **Industry-standard technology**

The platform of PHP & MySQL will sit on almost any existing web platform including Linux, Unix, Windows with Apache or IIS.  
(see the [BrowserCRM Technology Platform datasheet](#))

◆ **Consulting services**

The customizable modular, object-oriented structure of BrowserCRM can be extended to meet specific customer requirements. You can offer consulting services directly or resell services from our consulting team.
